

## SECTION 7

# GO STEEL ELECTRIC INSULATION COATING

Supplied as coils, bands or sheets with heat-resistant insulation coating “ЭТ” under GOST 32482-2013 (equivalent to the electrical insulation coating under EN 10342).

Coating type	Base	Colour	Resistance factor, $\Omega \times \text{cm}^2$	Thermal resistance
ЭТ	Silicates, phosphates, chromates	Grey or brown grey	$\geq 20$	$(840 \pm 10)^\circ\text{C}$ , 3 h, in neutral atmosphere
